Logline:

Brian's raping unleashes his inner bravery, taking his revenge far beyond his wildest desires, until becoming the right hand of the person who sadly changed his life forever.

Synopsis:

Brian Loot leaves home like any other night, not considering that the bus stop under the rain was going to be the last place that ever saw him smiling while waiting the bus to attend the first class of his life's passion: chef school.

The black car approaches his steps, taking the young fearful man to a pitch black pit in the middle of nowhere to receive an atrocious punishment, considered a necessary cleansing by the perpetrators.

Covered up with a bag on his head during the whole atrocious moment, fate's next step finds the helpless broken individual lying all alone near unknown streets and highways.

Finding his way back home, his shattered spirit, heart and soul refuse to stay alive under the haunting images constantly flooding his thoughts. But only one silent voice keeps him wide awake every second of the first night of the rest of his life. And it barely whispers just one word into his ear: "revenge".

The kid's transformation continues downward spiral, until allowing the tormented mind of an innocent seventeen year - old to become the right hand of "The Sathyas", the deadly cult leaded by Nemoniac, his rapist.
